Faculty of Economics and Sociology Chair of Econometrics Models and Forecasts	dr hab. Robert Kelm robert.kelm@uni.lodz.pl	0000-0002-0050-2997	Economics and finance	Due to the dynamics of economic processes, a systematic description of economies requires the use of formalized quantitative analysis tools. The seminar is addressed to doctoral students interested in using quantitative methods in economic and social analyses. The topics of the seminar include such issues as macro-modeling and forecasting of economies, empirical analyzes of economic policies, and forecasting of selected markets. Seminar participants have the opportunity to use modern quantitative methods, such as cointegration analysis, non-linear models and structural change models.
